PROFILE SUMMARY

Computer Science Engineering student focused on Cloud & DevOps Engineering with hands-on experience in CI/CD, deployments, environment configuration, monitoring, and production support. Skilled in Linux, Docker, Git, AWS fundamentals, Python, FastAPI, PostgreSQL, and Redis. Passionate about automating infrastructure, improving system reliability, and delivering secure, scalable applications.

EDUCATION

Allenhouse Institute of Technology

Bachelor of Technology, Computer Science Engineering

S.I.C. Fatehpur

Intermediate and High School

AKTU, Kanpur

2023 – 2027

Fatehpur, UP

UP Board

EXPERIENCE

Freelance Software / DevOps Engineer (Paid Work)

Jan 2026 – Present

- Manage end-to-end DevOps operations including CI/CD pipelines, deployments, environment configuration, monitoring, and production support.
- Deploy and maintain backend services, databases, and applications on cloud infrastructure for high availability and performance.
- Implement CI/CD workflows using GitHub Actions and automate build, test, and deployment processes.

PROJECTS

RideNova AI Powered Ride Booking Platform — Flutter, FastAPI, Redis, PostgreSQL, Docker, AWS

- Developed a scalable ride booking platform with real-time trip processing and location tracking.
- Containerized backend services using Docker and deployed on cloud infrastructure.
- Implemented Redis for real-time data handling and caching.
- Set up a CI/CD pipeline using GitHub Actions for automated build, test, and deployment.

Warden Log Analyser & Threat Detection Platform — React, Node.js, PostgreSQL, Docker

- Built a cybersecurity monitoring platform for SOC analysts to monitor threats and investigate incidents.
- Built a cybersecurity monitoring platform for SOC analysts to monitor threats and investigate incidents.
- Implemented secure REST APIs with JWT authentication.
- Used CI/CD to automate testing, building, and deployment of the application.

AVSAR One-Stop Personalized Career & Education Advisor React, FastAPI, PostgreSQL, JWT

- Built an AI-powered platform that provides career guidance, college insights, scholarships, and aptitude assessments.
- Developed and deployed RESTful APIs using FastAPI with PostgreSQL database.
- Implemented JWT authentication and secure user management.
- Deployed application using Docker and managed production environment

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, VPC, RDS, CloudWatch)

DevOps: Docker, Docker Compose, GitHub Actions, CI/CD, Nginx, Git, GitHub

Operating System: Linux (Ubuntu), Bash Scripting

Languages: Python, C, SQL (PostgreSQL), JavaScript

Frameworks & Tools: FastAPI, Node.js, React.js, Flutter, Firebase

Databases: PostgreSQL, MongoDB, MySQL, Redis

Developer Tools: Git, GitHub, Docker, VS Code, Android Studio, Postman

Testing: Debugging, CI/CD, API Testing, Manual Testing

ACHIEVEMENTS

- Secured **1st position in “ROBORACE”** at Exuberance 2025 Allenhouse Institute of Technology.
- Finished in the top 10 at “Hacknovate 7.0,” a 30-hour international hackathon held at ABESIT.
- Secured **Silver in Sports (cricket)** tournament held in Allenhouse institute of Technology.

CERTIFICATIONS

- Agentic AI Certified Foundations Associate - Oracle
- Google AI Essentials – Google
- Cybersecurity Analysts Job Simulation - Deloitte
